The Budget

Make no mistake: our fight to protect funding has merely moved to budget slashes in the upcoming budget.

Contact Senator Cantwell and ask her to push for funding for PR and the Virgin Islands. She is the ranking member on the Finance Committee: so has some control over the funding authorization.

Health Care

Please contact our senators and ask them to protect our health care – and ask them to spread the word about ACA signups. Signups are from Nov. 1-Dec. 15th: a much shorter time period than before. In addition, they have slashed the advertising budget.

Also, call friends / democrats in red states and ask them to contact their reps and spread the word about ACA signups. If you don't have friends in red states, you can find other indivisibles by going to <https://www.indivisible.org/act-locally/> and finding a group there and contacting them. Talk to them / email about contacting their MoCs.

Immigration

On this site, federalregister.gov please click the green button on the top right and comment on the page that appears. Please share.

The monitoring is due to take effect in a few weeks: "The policy applies to not just immigration applicants, but also to naturalized U.S. citizens and lawful permanent residents." <https://goo.gl/iPBcF4>.

Please sign this petition to Gov. Inslee to stop all construction on the proposed Puget Sound Energy (PSE) Tacoma LNG project: <https://goo.gl/kMi5DY>.

"Picture this: a massive new cylindrical storage tank rising out of the Tideflats, nearly as tall as the Tacoma Dome and almost as wide as it is high.

Give it a dark, concrete gray shade, as suggested in official documents. They also say to ring it with a few stands of trees and some boulders to offset the visual impact a little."
