## We have no Census Director

The decennial census, which has been taken every decade since 1790 as mandated by the Constitution, provides an important tally that helps to determine how many House seats are apportioned to each state in Congress, how congressional districts are drawn and how federal funds are distributed.” The Census Director stepped down on June 30th: NYTimes. Without a Census Director, we in the Seattle area particularly have a problem – because the Seattle metro area has grown so quickly, and we will not have number of House seats that we should. Urbanization is happening rapidly across most of the states: wikipedia.org – so this is a big deal. Please Contact our senators and ask them to apply pressure to Trump to appoint a Census Director asap.
