Today is the best day of Trump's administration from here on out: he will get worse every day.

For impeachment it takes:

51 percent of house to vote for it

67 senators to vote for it when it goes to trial

Ages 18-35 are the most progressive and the most numerous by population: but they Vote at half rate of all other age groups. Steyer ran a youth movement in 2013:

- We need to engage the youth to encourage them to vote.

In the Constitution it talks about us having the right to Life, liberty and the pursuit of happiness: we obviously deserve health care and clean air and water.

Inflation is 2.8 per cent this year - and yet workers get no raise. This has been going on for 40 years now whilst corporations are making record profits

This administration is taking away our dignity and rights.

This impeach movement has 5.4 million on their email list. We need to impeach as soon as possible because over time, the judiciary could get packed with unqualified young judges. Also, Trump is getting nuttier every day. He has well-documented mental illness.

Trump is using the government and can use missiles as he likes. He is not working for the people. He is not obeying the rule of law.

80 million people voted for Trump. The Democrats have to stand up and speak out and protect Mueller. 75 per cent of democrats want impeachment.

Trump's behavior this week at the G7 and the North Korea situation was scary. We need to impeach. Impeachment is about patriotism. It is about telling the truth: and putting America and Americans first. It is really hard to have a conversation without truth, for instance science.

One way to tackle this if Congress won't: we need to stop Trump making money by stopping him by carrying banners around shaming him around his properties.

One lady said that Trump followers will lead us into armed conflict and civil war because we are so polarized right now.

Pruitt and Trump deleted scientific records that they had - and off the web site. We can defend ourselves at the ballot box. They want money - and they do these things in secret so that no one finds out, they hope.

Our election systems were hacked in 2016. African Americans are being suppressed and their votes are being taken away.

In States where they want Trump they do not have paper ballots. They do not want fair elections.

We need campaign finance reform.

15 year old Student from 2 hour's drive from the Parkland school in Florida spoke. She said that Gabby Giffords and everytown worked with Steyer's million dollars to get the word out.

Most children are scared of being shot at school

He said progressiveness is another word for godlessness.

He is framing people saving democracy as against them and therefore against god

The Steyer group have been to the Carolinas, Wisconsin, Nevada and other red places. They try. They tried to advertise on Fox News - and they did on Roseanne. Many people control their media narrowly.

The Hastert rule means that the speaker of the House won't bring it to the floor unless 51 per cent of the Republicans would vote for it. They wouldn't get 51 per cent of the House for impeachment.
